ABOUT ME

I am a passionate developer who enjoys turning ideas into technical solutions. I write code not just to make it work, but to understand the process, staying patient while debugging and learning from mistakes to strengthen my technical skills. I work well in a team and take ownership of my work. I enjoy helping teammates, sharing knowledge, and continuously learning.

EDUCATION BACKGROUND

Cambodia Academy of Digital Technology(CADT) 2024 - Present

Third Year, Bachelor's Degree in Computer Science

- Specializing in Software Engineering

WORK EXPERIENCE

Next-Gen Engagement Program, CADT Aug - Sep 2025

Trainer

- Taught C++ algorithms to Year 1 students
- Collaborated with a team to build a multiplayer quiz platform project.

Khoding Hero, CADT (USAID-supported) Aug - Sep 2024

Trainer

- Educated secondary school students on fundamental ICT and coding skills using Scratch in Siem Reap province.

ACADEMIC PROJECT

Domrov LMS-Automation Oct 2025 - PRESENT

Backend Developer

- Built RESTful APIs using NestJS
- Added gRPC for communication between NestJS and Python.
- Used Python for file processing and interaction with LLMs
- Implemented caching and automated jobs via a task queue

Multiplayer Quiz Platform Aug 2025 - Sep 2025

Backend Developer

- Built real-time gameplay using Express.js and WebSockets
- Analyzed and implemented MongoDB database schema

Online Marketplace May 2025 - Jul 2025

Fullstack Developer

- Analyzed and implemented the MySQL database schema
- Developed RESTful APIs using Express.js
- Integrated Bakong payment gateway, Telegram Bot, and third-party services
- developed frontend and integrated with backend
